Website Name - Accessibility Now

Aim: Provides reviews of businesses regarding their accessibility options & resources others have found helpful.

Page 1: Home

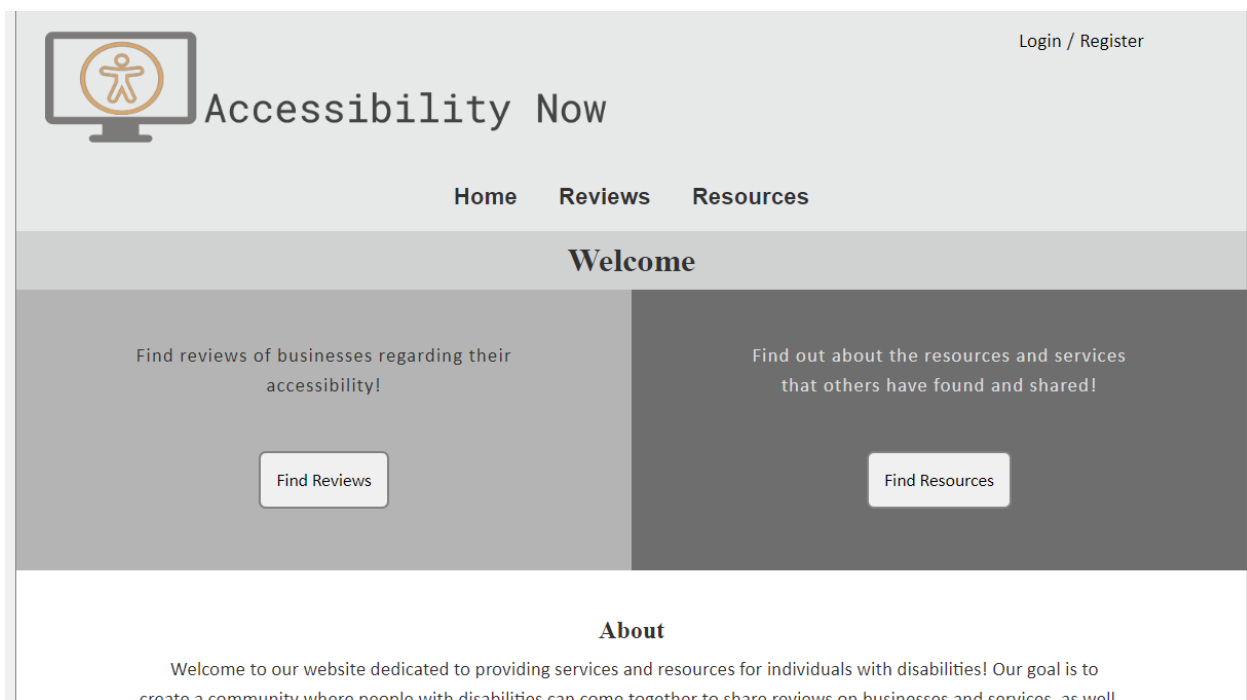

Figure 1

Home page consists of a general overview of the website. The feel is simple, color-schemes were chosen wisely keeping vision aid in mind. Welcomes the users to a safe place that provides knowledge and helps with sharing knowledge.

This is where you will start when you first open our product. It consists of a welcome with options to the rest of the pages, an about us section, and a contact form at the very bottom. To navigate to the reviews page you can press the button “Find Reviews” or press the Reviews menu option shown in Figure 2 and to navigate to the resources page you can press the button “Find Resources” or press Resources in the navigation menu as shown in Figure 3.

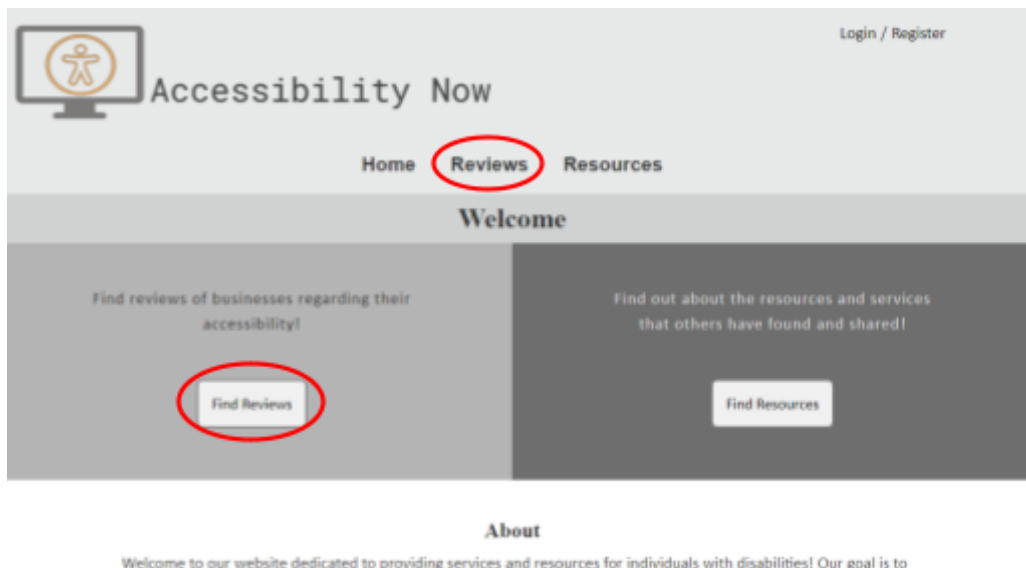

Figure 2

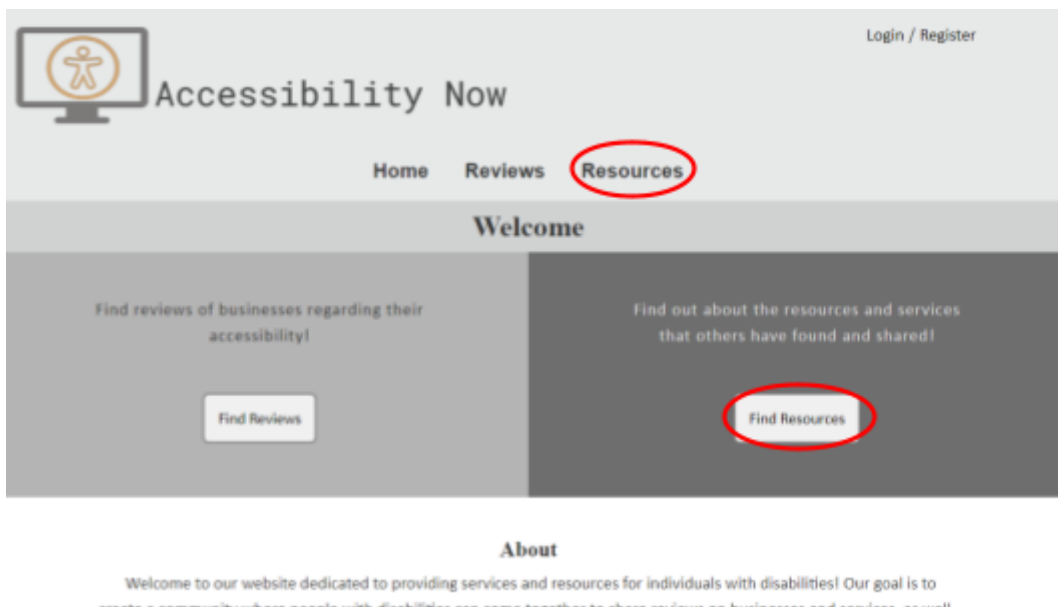

Figure 3

The Contact Us form at the bottom of the page depicted in Figure 4 allows submission of feedback from our users and will indicate successful submission when submitted and perform error checking.

Figure 4

Page 2 : Reviews

Reviews page straightforwardly prompts the user to find a business to see their reviews which is shown in Figure 5. After selecting a business a new page will open, populated by the reviews for the business. It provides contact information, the address, their website, and also a static google map of the area, which is depicted in Figure 6.

Phone #: (780) 484-0700

Figure 6

On this dynamically created page you can also add a new review for the business you searched by pressing the “Add Review” button located underneath the business information that was depicted in Figure 6. Clicking this button will open a pop-up form in the center of the page that contains basic input checking and will allow you to fill it out and submit which will then put your new review at the top of the list of reviews, alternatively you could also click close if you change your mind on adding a review. The pop-up form is depicted in Figure 7.

Add Review

***Title**

***Would you recommend this place?**

☐ Yes

☐ No

***Description**

***Select the disabilities that apply to this resource:**

- ☐ Auditory
- ☐ Cognitive, Learning, and Neurological
- ☐ Physical
- ☐ Visual
- ☐ Speech

Figure 7

You can also filter the reviews or search for a keyword by using the selector to filter by disability type or positive/negative reviews or by using the search bar. These mechanics are depicted in Figure 8.

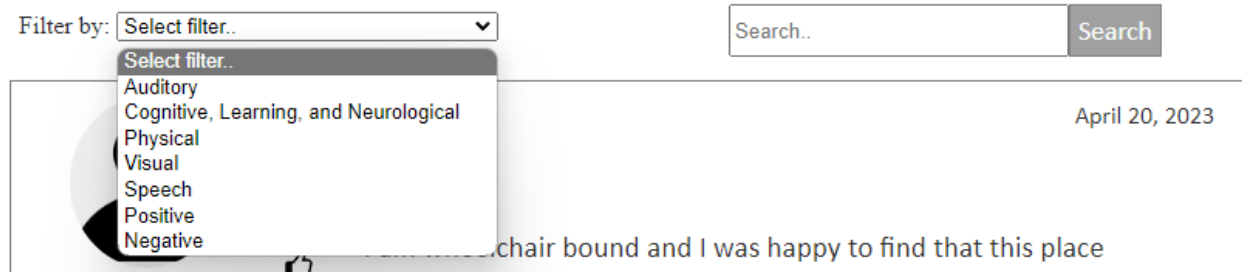

Figure 8

A sample review is depicted in Figure 9. A review consists of a user, header, date, and description. The User section located in the green square contains a generic user image and the name of the submitter. The Header section located in the purple rectangle includes the title for the review along with a list of all the disabilities it applies to underneath the title. The date of the resource submission is in the top-right corner of the resource card and is depicted in a blue rectangle. Lastly in the yellow rectangle we have the description which includes text explaining their rating and either a thumbs up or down icon depicting whether or not the business is recommended.

Figure 9

This page uses script and php to dynamically perform the searches and dynamically create the review cards using the information stored in the database. If someone who isn't logged in attempts to add a review then the log-in page will open instead prompting

the user to log in.

Page 3: Resources

Resources page is a place for users to leave their resources for others to use. It lets you add a new resource by pressing the “Add New Resource” button location in the title bar of the page and is depicted and circled in red in Figure 10. Pressing the button will open a pop-up form to add a new resource and require the user to add their user, a title, a description of the resource, and select which disability types it is applicable to. Pressing submit will create the resource at the top of the list of resources unless one of the fields were left blank then it would ask for the form completion first, alternatively you can press the Cancel button to remove the form if you no longer wish to submit a new resource. This form is depicted in Figure 11.

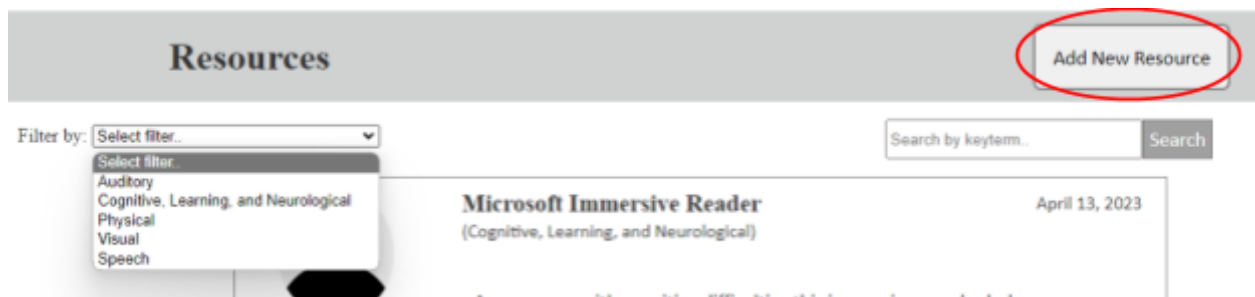

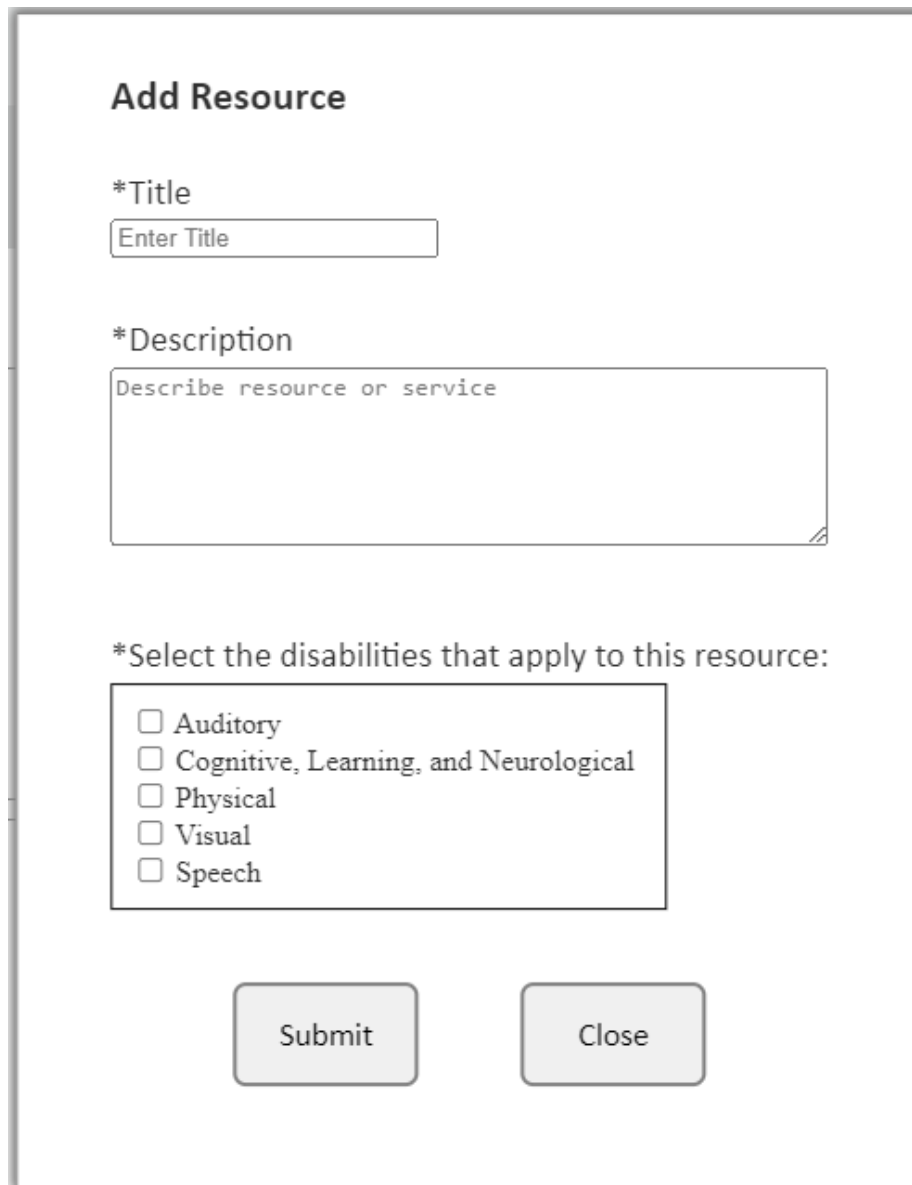

Figure 10

A form titled "Add Resource" with three main sections. The first section is labeled "*Title" and contains a text input field with the placeholder "Enter Title". The second section is labeled "*Description" and contains a larger text area with the placeholder "Describe resource or service". The third section is labeled "*Select the disabilities that apply to this resource:" and contains a list of five checkboxes: "Auditory", "Cognitive, Learning, and Neurological", "Physical", "Visual", and "Speech". At the bottom of the form are two buttons: "Submit" and "Close".

Add Resource

***Title**

Enter Title

***Description**

Describe resource or service

***Select the disabilities that apply to this resource:**

- ☐ Auditory
- ☐ Cognitive, Learning, and Neurological
- ☐ Physical
- ☐ Visual
- ☐ Speech

Submit Close

Figure 11

You can also filter and search using keywords like in the reviews section except there is no option to filter by positive or negative, these mechanics are also depicted in Figure 10.

A sample resource is depicted in Figure 12. A resource consists of a user, header, date, and description. The User section located in the green square contains a generic user image and the name of the submitter. The Header section located in the purple rectangle includes the title for the resource along with a list of all the disabilities it applies to underneath the title. The date of the resource submission is in the top-right corner of the resource card and is depicted in a blue rectangle. Lastly in the yellow rectangle we have

the description of the resource as written by the submitter.

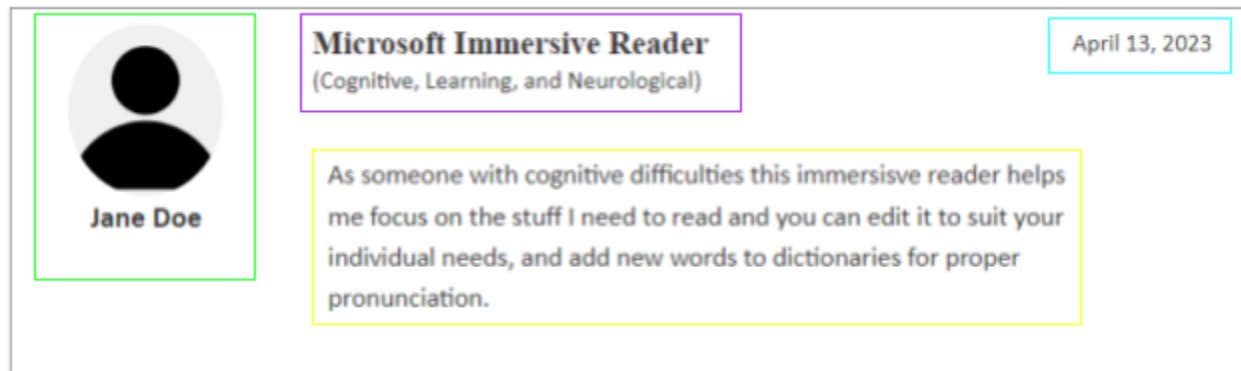

Figure 12

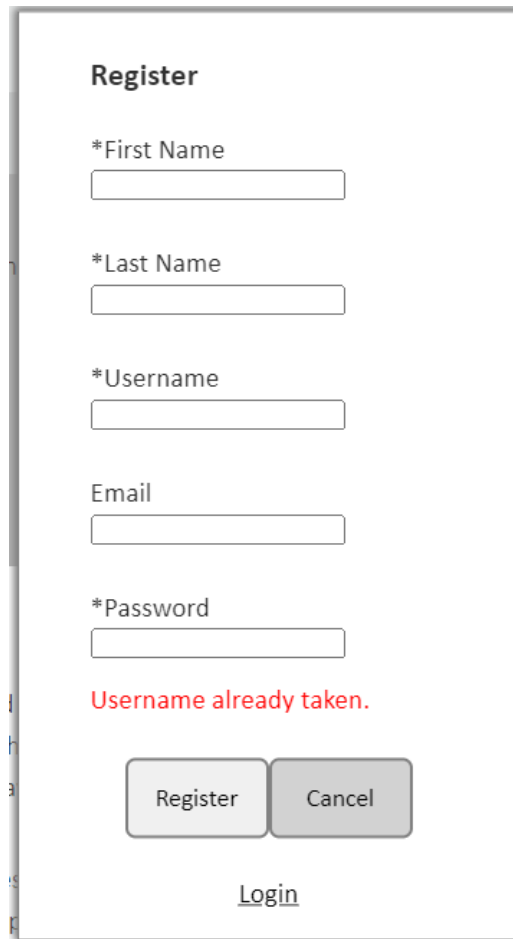

This page uses script and php to dynamically perform the searches and dynamically create the resource cards using the information stored in the database. If someone who isn't logged in attempts to add a resource then the log-in page will open instead prompting the user to log in.

Logged in Changes

As seen in figure 1 in the top right corner, there is a login and register link. If you press the login link a popup login form will pop up as seen in figure 13 and if you press the register link a register popup form will pop up as seen in figure 14.

A login popup form with a white background and a gray border. At the top, the word 'Login' is in bold. Below it is a message: 'To add a resource or review you must be logged in.' There are two input fields: 'Username' and 'Password'. At the bottom, there are two buttons: 'Login' and 'Cancel', and a link labeled 'Register'.

Figure 13

The image shows a 'Register' form with the following fields: *First Name, *Last Name, *Username, Email, and *Password. Each field has a corresponding text input box. Below the *Username field, there is a red error message that reads 'Username already taken.' At the bottom of the form, there are two buttons: 'Register' and 'Cancel'. Below these buttons is a link labeled 'Login'.

Figure 14

If you accidentally press the wrong one you can switch between them using the link below the buttons. Figure 14 also depicts error message depictions for database integrity. When the user is logged in the header is updated with the profile information, image and logout button as seen in image 15 in the top right corner. This profile will show on every page.

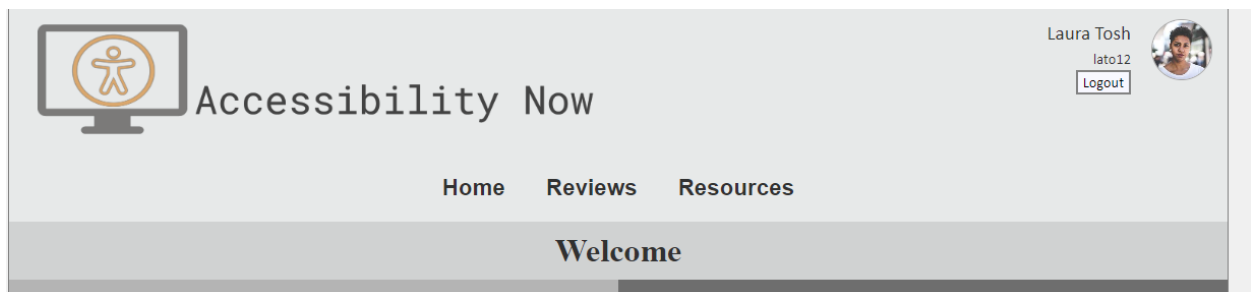

Figure 15

If you press the user image it takes you to the “Profile” page. If you press the logout button you will be logged out and redirected to the home page.

Profile Page

The profile page shows all the user information beside a larger profile image as shown in figure 16. Underneath the profile information is the “Edit Profile” button which opens a form for you to change any profile information and also upload an image as shown in figure 17.

Update Profile

Figure 17

If you change your mind about editing the profile you can press the back button located in the top left of figure 17.

Admin Pages

If you are logged on as an admin you will see a new page option in the header category called “Admin”, the main admin page is depicted in figure 18.

The screenshot shows the Admin page interface. At the top is a navigation bar with links: Home, Reviews, Resources, and Admin. Below this is a header section titled "Admin". Under the header is a "Menu" section with the following links: Manage Users, Manage Administrators, Manage Open Contact Requests, and View Closed Contact Requests. The main content area is titled "Open Contact Requests" and contains a table with the following data:

Name	Email	Message	Date Submitted	
Kelsey Watson	kwatt@gmail.com	I love what you are doing, it has been so helpful.	2023-04-25	<button>Close</button>
Daniel Weibe	daniel@yahoo.com	How can I change my profile image?	2023-06-27	<button>Close</button>
Bailey Warren	bailey@business.com	There is an inaccurate review for the business that I own that I would like to dispute.	2023-07-08	<button>Close</button>

Figure 18

The opening page shows a menu of all the tasks the admin can perform. It then shows all the open contact requests that were submitted using the form on the home page. Here the admin can close the request after addressing it by pressing the close button. This will remove it from this view and add it to the closed contact requests. Figure 19 depicts the list of closed contact requests that is depicted when selecting the “View Closed Contact Requests”. In addition to the information depicted in the open contact requests it also shows the date the request was closed and the name of the administrator that closed it.
